

Top 5 reasons to switch to a KULTHORN compressor today!

1. Reliability

- Kulthorn is one of the largest manufacturers of hermetic air conditioning and refrigeration compressors in the world.
- In 2004, Kulthorn acquired a United States based compressor manufacturer in Thailand to continue manufacturing compressors with a higher quality and legacy of excellence.
- Year after year customers trust us, re-order from us, and refer us to new customers in the market.
- Kulthorn has manufactured compressors for more than 35 years.

2. Quality

- An unprecedented, 12-month warranty is in effect from the date of install so that you can sell with peace of mind.
- Kulthorn's compressors use state of the art technology coupled with more than 35 years in business, so that you can sell with confidence.
- For 33 years, Kulthorn has manufactured fractional HP compressors under the advanced technology and license of Sanyo to be the leader in the motor compressor business.
- Kulthorn condensing units are manufactured under the advanced technology of "Heatcraft" to ensure superior quality.
- Designed for fast and simple drop in installation and direct replacement for many major OEMs.
- Kulthorn compressor failure rate is less than 1%.
- No outsourcing and a majority of the components of the compressor are manufactured in-house to ensure the highest quality to the customers.
- Kulthorn compressors are 30% more efficient than conventional products sold in the market to reduce drain on the environment and save money on electricity.

3. Reliable master distributor here today and tomorrow!

- Elco was created in 2011 based on the prestige and due-diligence of Kulthorn.
- Elco has been in the B2B HVAC/R industry for more than 32 years with unprecedented industry knowledge.
- Elco has a team of industry experts and engineers to answer your questions to keep your customers at ease.

4. Fulfilment

- Elco has more than 17,000 compressors in stock to ensure product availability when you need it.
- All of our orders are shipped within 24-48 hours from our warehouse so that you don't have to keep large amounts of inventory.

5. Price

- Kulthorn manufactures the majority of components of the compressors in-house so there are no outsourcing costs involved.
- Compressors are manufactured in Thailand which has a lower cost structure which provides you with the best pricing.

THOUSANDS OF COMPANIES HAVE TRUSTED KULTHORN COMPRESSORS FOR DECADES.
