

Model #: IS-IR-WIFI-1

Overview:

IntesisHome is the most advanced solution to remotely manage an mini-split system with a wireless remote using mobile devices such as smartphones, tables and PC's.

How it Works:

- Control your mini-split from a web page, iPhone, iPad or Android app.
- A wireless (Wi-Fi) device installed in each unit controls the operation.
- A cloud server manages the process.

Product Specifications:

- Compatible with most AC with wireless remote controllers.
- Control and monitor: On/Off, Mode, Set Temp., Room Temp., Fan Speed, Vane Position
- Easy to install: Wall or desktop installation.
- IR wireless remote controller feedback.
- Power supply included.
- Power supply can also be connected directly to the AC.
- Automatic firmware Update.
- Licensing free for up to 50 devices
